Major corporations and leading law firms join BBB National Programs as National Partners to demonstrate their commitment to an accountable, transparent, and fair marketplace for consumers.

Play fair. Be accountable.

Become a BBB National Programs National Partner.
A BBB National Programs National Partner:

What It Means

BBB National Programs, an independent non-profit organization home to more than a dozen industry self-regulation programs, sets high standards for businesses and provides third-party accountability and dispute resolution services that help ensure a fair marketplace for consumers.

Through the depth and breadth of their support, our National Partners demonstrate to stakeholders a commitment to transparency, accountability, and marketplace trust.

Here’s how we:

Set Best Practices

With National Partner input, we establish industry best practices tailored to enhance marketplace trust without the need for top-down new—or additional—regulations.

Implement Accountability

Together, we put those standards into practice through the development and execution of self-regulatory programs that include built-in accountability mechanisms.

Support Dispute Resolution

Where necessary, we support businesses and consumers with efficient and effective dispute resolution programs.
We Support What You Stand For

Our well-established network of National Partners is comprised of leading businesses and law firms. By becoming a BBB National Programs National Partner, you send a clear message.

Corporate Social Responsibility

You represent a business that believes in doing the right thing.

Team Players

You want to join like-minded major corporations and leading law firms committed to play fair and prioritize accountability.

Leadership & Influence

You want to play a key role in the future of business accountability and industry self-regulation.

Our Promise to Each Other

As a BBB National Programs National Partner, we promise you a seat at the table to discuss steps to grow existing self-regulatory programs, develop new programs to meet marketplace demand, and engage in policy and guideline discussions that will shape the future.

In turn, you promise to take that seat and our partnership seriously, providing us your honest input and valued expertise as to how your business and your industry can take tangible and meaningful steps to enhance accountability and to create a more trustworthy marketplace.
Five Decades of Impact

While BBB National Programs was established as an independent non-profit entity in 2019, our program teams have worked with industry leaders and government regulatory agencies since 1971 to establish the standards that guide best practices in advertising, privacy, consumer warranty issues, children’s and teen’s marketing, and dispute resolution.

Our Programs:

- Monitor and enforce truth in national advertising
- Demonstrate respect for a consumer’s privacy preferences through data privacy watchdog programs
- Manage corporate international data transfer compliance through monitoring, independent recourse mechanisms, and dispute resolution services
- Ensure consumer disputes are heard and addressed through the largest vehicle warranty dispute resolution program in the United States
- Strengthen the direct selling industry with accountability and dispute resolution mechanisms established with a leading industry association
- Protect young children from inappropriate child-directed advertising and improper online data collection practices and (coming soon) work to foster teen privacy protection practices
- Deliver arbitration services for customers of a leading telecommunications provider
- Address children’s nutrition and advertising challenges through self-regulatory pledge programs with leading food, confectionary, beverage, and quick-service restaurants
